

Forest Pest and Disease 2012

Wednesday, February 15, 2012

**Hugh John Flemming Forestry
Centre**

9:00 a.m. - 4:00 p.m.

Registration 8:30 a.m.

The brown spruce longhorn beetle has been sighted in New Brunswick. Is a spruce budworm outbreak imminent? This workshop will provide updates on the brown spruce longhorn beetle, spruce budworm, and other pests and treatment options. The day will conclude with a discussion of management implications.

Registration: \$20

For more information: 506-432-7575
